

SERVALA

Open Cloud Native Service Hub

Connecting businesses, developers, and cloud providers on a sovereign hub for secure, scalable, and user-friendly cloud native services.

Easily access a vast catalog of services, databases, apps, and DevOps tools across multiple clouds and in your private cloud.

Why Servala?

- ▶ **Faster Time-to-Market** – Deploy services instantly from a vast catalog.
- ▶ **Cloud-Agnostic** – Run services on any cloud or on-premises.
- ▶ **Security & Compliance** – Built-in GDPR, ISO, ISAE compliance.
- ▶ **Sovereignty** – Choose from multiple cloud providers or on your private cloud.
- ▶ **Cost Optimization** – Transparent pricing and lower cloud expenses.
- ▶ **Seamless Integration** – Kubernetes-native, pre-configured solutions.
- ▶ **Scalable & DevOps-Ready** – Services that grow with your business.
- ▶ **Fully Managed** – VSHN handles maintenance, updates, and monitoring.
- ▶ **Open Source & Enterprise-ready** – open-source or commercial editions.
- ▶ **Expert Network** – Access consulting partners for optimization.

Unlock the Power of Cloud Native Services
